DETAILED ACTION

1. This action is responsive to amendment received on August 22, 2005.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21-22 and 52-53, drawn to Computer to computer data routing, classified in class 709, subclass 238.
 - II. Claims 24-25, drawn to computer network monitoring, classified in class 709, subclass 224.
 - III. Claims 29-32, 34-43 and 45-51, drawn to computer to computer data addressing, classified in class 709, subclass 245.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as detect a packet flow for a predetermined time period and detecting a packet flow before another period of time. Invention III also has a separate utility such as detecting binding information and binding cache information providing a correspondence between an IP address of the mobile terminal and IP address of a foreign agent that is accommodating the mobile terminal. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group II and II is not required for Group I, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. A shortened statutory period for response to this action is set to expire thirty days from the mailing of this communication. Failure to respond within the period for response will cause the application to become abandoned (35 USC 133). Extension of time may be obtained under provision of 37 CFR 1.136(A).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hussein A. El-chanti whose telephone number is (571)272-3999. The examiner can normally be reached on Mon-Fri 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on (571)272-4001. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
